Mr. Greenheim,

Thank you for being so diligent towards the projects over the years, with the completion of the Heidt and Connely projects, the clients remain encouraged and satisfied with their selection of your firm.

Your ability to envision and execute the project from the planning stage, understanding of documents and to final installation has been invaluable. Even with the typical changes and revisions of any project, the ability to coordinate and always finding the right method and route to complete the task has been a true devotion on your part.

Your services will always be appreciated by us and our clients.

Sincerely yours,

Peter Chu
